EN1650 (yeast, clean conditions, 30 seconds). Candida albicans

EN14476 (clean conditions, 30 seconds). Modified Vaccinia Ankara

## How to Use

Use on visually clean dry hands. Apply enough product to keep the hands wet for 30 seconds.

Complete the 7 steps given below, repeating each movement at least 5 times.

1 Apply enough disinfectant to cover the whole hand.

2 Rub hands palm to palm.

3 Right palm over back of left hand with fingers interlaced. Do the same again with right hand over left.

4 Palm to palm with fingers interlaced.

5 Backs of fingers to opposing palms with fingers interlocked.

6 Rotational rubbing of left thumb clasped in right palm and vice versa.

7 Fingers of right hand in left palm rubbing clockwise, then anti-clockwise. Do the same again with the left hand in right.
